

Quality Assurance SMA Inverters

SMA inverters are widely recognized in the industry as the best inverter to purchase. SMA is a German manufacturer that has been around for a good number of years. They are a leader in the inverter manufacturer field and deservedly own a large share of the inverter market. SMA is known for their quality, level of service and exceptional monitoring capabilities. One of the best features of the SMA Company is backup service. They provide us with exceptional service and therefore we can support you with top quality service. As market leader for solar inverters SMA is setting benchmarks again and again: leading-edge efficiencies of 98% and new technology ensure maximum yields and the highest user convenience. SMA inverters are IP 65 rated which means they are protected from high pressure water ingress from any direction and are dust tight and vermin proof to the main components.

SMA has the largest supporter base in the industry worldwide and in particular they are based in Australia with a premium backup service and their tech support is second to none. SMA products carry an initial 5 year warranty with options for extensions up to 25 years.
